Inventive billionaire and renowned spinal surgeon Dr. Gary K. Michelson is devoting his resources and intellect to fund advances for animals, education, medicine, science, and technology that would otherwise be missed

High Impact

Curated air expeditions that help spread joy around the globe

Travel the World, Change the World

Fly to hard-to-reach destinations, touch lives

Take off with no worries—TCS World Travel has it all planned out, from mapping out trips to a return home with memories to last a lifetime. TCS Expeditions are carefully curated to provide immersive experiences that embrace clients' desires, from the exploration of unique cultures and foods to historic sites, exclusive gallery visits, and intimate concerts. Private

charters take customers to places that commercial airlines have difficulty reaching, providing the ultimate one-of-kind journey while also reducing travel time. TCS takes care of all the details, so travelers can relax and enjoy every moment. To add even more worth to its trips, TCS donates on behalf of fliers to partner foundations and philanthropies in many destinations.

Guests often have the opportunity to see the impact of these donations firsthand on their travels, connecting with people and places in a deeply special way while on a great adventure. tcsworldtravel.com

GIVING BACK

TCS PARTNERS WITH A NUMBER OF CHARITIES ALLOWING GUESTS TO VOLUNTEER OR DONATE, INCLUDING:

Akilah Institute

A vocational program that prepares young women in Rwanda for rewarding careers in a variety of industries; many graduates are employed by TCS ground-agent partners

Gorilla Doctors

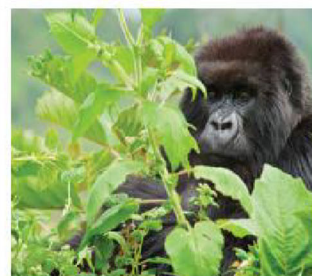

A veterinary project working to conserve critically endangered wild mountain gorillas in Rwanda; visitors can meet the veterinarians and learn about their work

Ujenzi Charitable Trust

A global health nonprofit founded by Dr. Thomas F. Burke, who was inspired to start the organization after serving as the trip physician on a TCS private jet expedition

Other TCS-Supported Charities:

Samoan Women's Committee; Sila Training and Heritage Preservation Company in Jordan

CUSTOMIZABLE HELICOPTERS FOR BUSINESS OR PLEASURE

While the typical Airbus customer uses the rotorcraft for utility, transport, or rescue missions, the formation of Airbus Corporate Helicopters allows clients to personalize helicopters for their use. Fliers can fully design the interiors of their unique chopper, and enhance exteriors, and can choose from three categories: Stylence, Exclusive, and Editions. Stylence are basic models, featuring a selection of in-house customizations. Exclusive gives clients free range. With Editions, outside luxury brands collaborate. Whether travelers want their helicopter to match their yacht or to sport unique brand-name designs, ACH caters to their needs for business and pleasure.
